## HOW TO IDENTIFY THE MODEL & SERIAL NUMBER OF YOUR DOSATRON INJECTOR

There are 2 simple ways to identify your Dosatron unit **Model & Serial Number**:

### 1 SCAN THE QR CODE

Located on the bell housing of your Dosatron

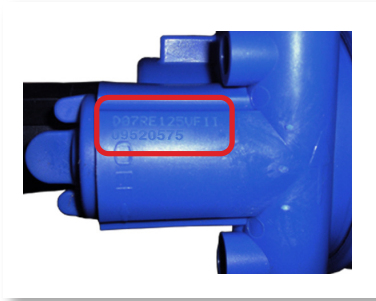

This will access all the information specific to your particular Dosatron including the specifications, model, serial number and resources.

Dosatron • 2090 Sunnydale Blvd. • Clearwater, FL, USA  
1-800-523-8499 • 727-443-5404 • [www.dosatronusa.com](http://www.dosatronusa.com)

## 2 LOCATE THE SERIAL NUMBER

Etched on the body of your Dosatron

Use the images below to find the location on your specific model

D07

D128

D25

DM11

D14

D45

D40 (D8R)

D20S\*

\*The **D20S** Serial Number consists of a 5-digit number

### DOSATRON UNIT SERIAL NUMBER

The Serial Number consists of 8-digits etched on your Dosatron unit:

- The **FIRST** and **SECOND** 2 digits represent the **YEAR** and **WEEK** the unit was manufactured
- The **remaining digits** identify the **RUN NUMBER**
