

DOSATRON[®]

An Ingersoll Rand Business

UPGRADING FROM D8R TO D8RE OR D40MZ - 40 GPM SERIES

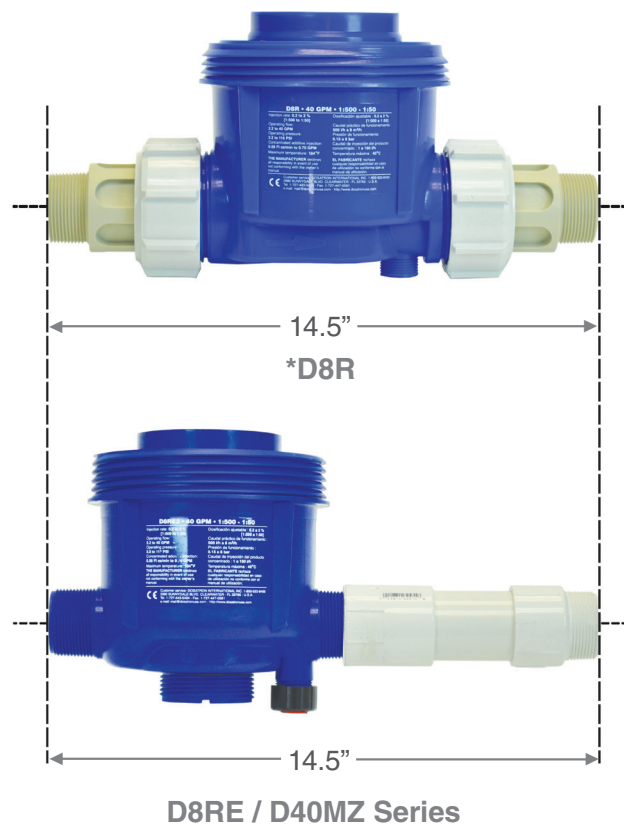

The width on the *D8R and all D8RE / D40MZ Series is different due to the different body styles. There is an easy plumbing option to install your NEW D8RE / D40MZ units to fit in the space of your old *D8R unit

It will require an ADAPTER that consists of:

- A** 1.5" slip x 1.5" female NPT Thread Adapter
- B** Approximately 4.25" to 4.5" section of 1.5" PVC
- C** 1.5" slip x 1.5" male NPT Thread Adapter
- D** PVC glue

INSTRUCTIONS

- Glue the piece of pipe **B** to the slip side of each fitting **A** and **C**
- Wrap thread tape onto the threaded part of the injector's body
- Screw the new adapter onto the D8RE / D40MZ Series injector body

NOTE: Old Dosatron *D8R unit replacement parts have limited availability and will be phasing out soon. If you need replacement parts for your old D8R unit, call 1-800-523-8499 to check on availability, or to order your NEW 40 GPM Unit
